**Training
Course Announcement**

Course Title: Unstable Slopes Training

Dates: Pacific Cascade Region September 26 & 27, 2006
Northwest Region October 4 & 5, 2006
Olympic Region October 25 & 26, 2006

Location: Region Office

Time: 9:00 a.m. – 4:30 p.m.

Maximum Class Size: Class size is limited to **20 participants**, so register ASAP.
First come, first served.

Instructors: Venice Goetz & Jack Powell

Course Description: Upon completion, participants will have been exposed to concepts and techniques used to identify unstable slopes.

Course Objectives: Participants will be able to:

- 1) Explain slope stability concerns related to Forest Practices.
- 2) Describe and identify unstable landforms.
- 3) Obtain skills necessary to identify and delineate a boundary around unstable slopes.
- 4) Recognize what a specialist needs from you.

Bring: **Bring a mirror stereoscope to class, if possible on Day 1.**
Bring a lunch both days.
This is a field-oriented training, so remember to wear field boots, a safety vest, and a hardhat on Day 2.

Intended Audience: Anyone needing skills in unstable slope identification and boundary marking.

Register Through: Kelly Warren (360.902.1400 or email: kelly.warren@wadnr.gov)
As Soon As Possible.

***Please Note:** 2006 may be the last year this class is offered.
